A consumer electronic magazine, This Week in Consumer Electronics (TWICE), reports that Kenwood has agreed to merge in 2008 with Victor Company of Japan (JVC) under a holding company. JVC is owned by Matsushita Electric Industrial Company. Japan's Nikkei business newspaper reports that the final details should be worked out by the end of the month, and that under the plan, Kenwood will buy 20 billion yen ($161,469,466) in JVC shares as early as this summer, raising its stake to 13 percent. Matsushita will also sell part of its 52.7 percent of JVC to Kenwood's top shareholder, the Sparx Group. When JVC and Kenwood integrate operations under the holding company in 2008, Matsushita will sell the rest of its JVC shares to the holding company to complete the transaction. The holding company's stock will be listed instead of Kenwood and JVC, according to Nikkei. Combined, Kenwood's and JVC's sales are $7.3 billion dollars annually for their fiscal year that ended March 31.

IPS Weekly Solar and Geophysical Report for 22nd to 28th June, issued on 29th June by the IPS Radio and Space Services
SUMMARY

Date	22	23	24	25	26	27	28
10cm flux	65	66	67	68	71	73	75
AFr index	12	8	4	3	4	5 (	4 estimated)
Aaus index	12	6	6	2	4	4 (	5 estimated)
T index	12	5	6	4	-2	4	7

Solar flare activity was very low all week, excepting on 27th when activity was low.
Geomagnetic activity observed for the Australian region was quiet to active on 22nd; quiet to unsettled on 23rd and 28th; and low otherwise.
Southern Australian ionospheric F2 critical frequencies were near predicted to 15 per cent enhanced on 22nd; near predicted on 23rd to 25th, and 27th and 28th; and near predicted to 15 per cent depressed on 26th. Night-time Spread F was observed on 26th to 28th.
Forecast for 29th June to 5th July
Solar activity should be very low to low, although there is a chance of an M class flare.
Geomagnetic activity should see quiet to unsettled conditions. There could be possible isolated active levels on 29th.
Frequencies should be mostly near predicted monthly values, although depressions to 25 per cent are possible at times. Spread F is likely at night and may degrade communications then.

The Ohio/Penn DX Bulletin No. 814 - excerpts
9X, RWANDA
Antonio, EA5RM, has announced that a multi-national-team is planning to be on the air from Kigali this summer. Details will be announced later. Stay tuned!
DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, reports: "The 2006 DXCC Yearbook - Jun 22, 2007 16:19 ET The 2006 DXCC Yearbook is now at the printer and it is expected to 'hit the streets' in mid to late-July. While this is a little later than usual it is still within the DXCC timeframe for this publication. In order to receive the free publication you must:
* Be current on the DXCC Honor Roll during the 2006 calendar year, or, (QRZ.com).
* Have made at least one submission to DXCC during the calendar year period of January 1 through December 31, 2006.
If you are not in the above categories, copies of this, and all editions back to the 1993 start, are available for $8.00 each (Includes postage). Contact DXCC for questions. 73 es DX!"
FS & PJ7, ST. MARTIN AND ST. MAARTEN ISLANDS (Update/Survey)
Operators Marq/CT1BWW, John/EA3GHZ and Tomas/EA5YH will be active as FS/homecall and PJ7/homecall between July 15-25th. The trio (with their XYLs) will start their activity on the French side of the island but will make visits to the Dutch side throughout their stay. Activity will be on 80-6 meters, CW, SSB and the digital modes. QSL via their home callsigns. Visit their very interesting Web page at:
http://www.dxciting.com/index.htm
They have also added to their Web page a survey to determine what bands and modes are needed the most for each entity. During their operation, visit the DXFUN Web page for updates, photos and logs. Their survey is also available on this Web page too.
HAMIGG (Ham Social Forum)
Christian, DL6KAC, informs OPDX about a new project he has started last week called HAMigg (http://hamigg.de). It is a social bookmarking platform similar to digg.com (therefore HAMigg = Ham Radio + Digg). Christian states, "The big difference is HAMigg is limited to ham radio and technical topics only. In my opinion, Digg.com and all other platforms are heavily congested and it is really difficult to find the 'good stuff'. HAMigg is an effort to change this a bit. The idea is the following:
Users can submit interesting stories or articles which they have found on the internet (DX news, websites, ham software [freeware], ham radio news in general etc.). Other users can vote on these stories via an interactive voting system. Submissions or articles which receive a lot of positive votes will rank high, others will rank lower, helping to sort the submitted articles. RSS feeds are available so that users can easily subscribe and stay updated once new submissions are online. In a nutshell it's all about content for hams by hams."
Christian has compiled a more detailed write-up about the new project at:
http://ham-blog.de/radio-blog/2007/ham-radio-goes-diggcom-hamigg/
HB0, LIECHTENSTEIN
Pierre, HB9QQ, will be active as HB0/HB9QQ between June 29th and July 2nd and
